Feeling at home in Darwin, and with two young children, in 1968 they established their family business, Parap Fruit and Vegetable Supply. Losing everything but their lives during Cyclone Tracy, they rebuilt the shop on Parap Road with the help of family, friends and customers. I visited and studied many cultures, learning how to diversify the business into what is now Parap Fine Foods,' said son, Neville. 'Focusing on its future and giving it a whole new look, we not only expanded our product range but employed staff from all over the world to converse with customers and advise on products and best preparations.' Parap Fine Foods is still renowned for providing and sourcing hard to find products, along with that personal, family touch, that has been there since the beginning. 'We're creating a food precinct and a foodies destination here in Parap,' said Neville. 'We regularly have guest hosts on Saturdays, further educating people about the wines and foods we stock.'Today, Paul and Rene's children Neville and Paula, and granddaughter Larena have proudly turned the little shop into a nationally recognised emporium, which continues its love affair with international foods and wines.
