

Since 1975 local family-owned business Allcraft Cabinet Works has been creating stylish, functional and quality kitchens, bathroom vanities, bedroom robes and storage solutions to suit your personality, lifestyle and budget.

## UNSURPASSED QUALITY AND VALUE

**S**ervicing Darwin and its surrounds, Allcraft Cabinet Works also designs and manufactures built-in TV and home theatre units, display cabinets, outdoor kitchen and barbecue areas, and more. 'We've known George and the team for years. They have an outstanding reputation, but when we replaced our kitchen, we didn't think we could afford them. That was our biggest mistake,' Chris Andreou from Brinkin says. 'A kitchen is a massive investment and should last longer than eight years. This time we have everything we want and more, all within our budget. Allcraft worked with us to bring our dreams alive. You see the result on the computer before they manufacture it.' With four children, Chris declares the large island bench, hidden cupboards and soft-close handle-less drawers are perfect. 'They're also ideal for all the cakes and cooking! Allcraft's attention to detail was outstanding.' 'Our professional team gets your ideas out of your head and into your home,' Allcraft Cabinet Works owner George Ioannou says. All dream kitchens or built-in cabinetry comes with a price tag. But with an Allcraft price tag, you are guaranteed exemplary workmanship and unrivalled service for every dollar spent. 'We understand the financial impact a new kitchen can have, and we ensure every client gets the best value. We treat an \$8,000 kitchen with the same care and dedication to detail as we would a \$60,000 kitchen,' George says. Visit the showroom to view an extensive range of finishes and smart storage solutions. Allcraft Cabinet Works, 84 Marjorie Street, Pinelands.
