

RESIDENT KITCHENS

NATURALLY GEOMETRIC

Whatever size your space, Allcraft Cabinet Works has the solution when it comes to making the most of your kitchen.

For a brighter, more spacious-looking kitchen a pale or white palette is more versatile.

'Often people think white gets dirty more easily,' Allcraft Cabinet Works owner George Loannou said. 'But that's easily solved by choosing good materials that also won't change colour over time.'

George knows this because his family has been designing and manufacturing quality custom-made kitchens, bathroom vanities, wardrobes, storage solutions, home-theatre units, display cabinets, barbecue areas and more since 1975 in Darwin.

'That's the reason I chose Allcraft Cabinet Works,' Amber Wilkinson from Marlow Lagoon said. 'My mother had her third kitchen designed and installed by George's family, and they did a fabulous job. So when I recently replaced my 10-year-old kitchen, I didn't even consider anyone else in Darwin.' Amber's kitchen is high-gloss Stylite Sierra with Polytec Natural Oak Ravine features and 40mm Calcutta Caesarstone benchtops. 'I didn't want all white,' Amber added.

'The oak accents soften the brightness. I also wasn't sure our space would accommodate an island bench, but George's team assured us it would, and it does. With three children we needed lots of soft-close draws, even in the pantry, plus room for an integrated dishwasher, two fridges and freezers. I love what Allcraft Cabinets has achieved.'

'Our professional team will work with you to combine your ideas and our expertise to bring your dreams alive,' George said. 'Our latest 3D design software enables customers to visualise the result before we manufacture it.'

Allcraft Cabinet Works does more than just kitchens! Visit the showroom and view their extensive range of finishes and smart storage solutions at 84 Marjorie Street, Pinelands. Ph: 8932 3524 info@allcraftcabinetnetworks.com.au allcraftcabinetnetworks.com.au
