

TAKING YOUR BUILDING TO NEW HEIGHTS

PHOTOGRAPHY WORDS **NANNETTE HOLLIDAY**

Over the past decade, Darwin's skyline has soared ever upwards.

ALTITUDE MANAGEMENT BODY CORPORATE MANAGEMENT SERVICES FOR DARWIN AND PALMERSTON REGIONS.

More and more people are now calling an apartment home. Apartment living offers a modern, simple, fun lifestyle on the run and an optimum level of security. The many shared spaces like pools, spas, saunas, gym facilities, BBQ areas, gardens and undercover car parks help create the relaxed lifestyle we all dream of. However, these common spaces also represent a variety of challenges and changes in lifestyle that your Licensed Body Corporate Management agency has the experience in managing.

Just like other experienced professionals – Body Corporate Managers have seen it all before and know precisely what to do when some of the more weird and wonderful issues of strata living appear. Their experience is invaluable and can save strata owners and their Executive Committee, time, money, and frustration.

Since 2011, Altitude Management NT has provided locally owned and operated body corporate management services for strata complexes in and around the Darwin and Palmerston region. The award-winning Altitude Management NT

owner/manager is a former NT Strata Community Australia president with over 20 years of industry experience, and their experienced team are renowned for providing professional personal communication and servicing.

As in all industries, standards and services vary among competing companies. Altitude Management NT adopt a proactive approach, believing prevention is better than the quick band-aid fix. They also have a 24/7 real person contact should an emergency occur.

Having an objective and experienced external Body Corporate Manager on board takes any stress away. While most of their work is done 'behind-the-scenes', they assist the building committee in making good decisions, ensuring the lifestyle for the residents is enjoyed to the fullest.
