Under the guidance of director Mario Tsirbas, 4Kitchens has surpassed its origins with the bespoke pieces designed and created for our Larrakeyah Dream Home on page 166. Each piece featured here was designed to exacting proportions for the space it now rests in. The owners of the home took their wish list to Mario and his team took their wishes beyond their dreams. Using beautiful hardwoods like American oak and walnut and African mahogany, the team used their expertise to create masterpieces such as the dining table, with a glass insert that is at one with the tree, quite incredible! **4Kitchens is located within Cerbis Ceramics. 39 Winnellie Road Open Monday to Saturday.
