RESIDENT JEWELLERY

JEWELLERY AS UNIQUE AS THE TERRITORY

SYMBOLS OF AUSTRALIA COLLECTION FOR MEN AND WOMEN.

Man.

Long Journey.

Rain.

Camp Site.

The innovative Darwin family team of James and Simon Miles from Creative Jewellers has just launched its Territorian jewellery range. For men and women, the range features spiritual symbols and unique indigenous influences.

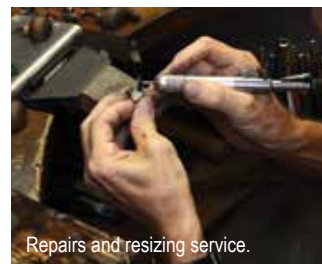

Master Jewellers Stephen and Jane Miles.

Bespoke ring made by Creative Jewellers.

CAD facility.

Repairs and resizing service.

'We currently have pendants available in silver and 9ct yellow gold, with earrings and cufflinks available shortly,' Simon said. 'As these are designed in our computer-aided design (CAD) facility, we can also produce them in 9ct or 18ct yellow, white, rose gold, or even platinum if required.'

Creative Jewellers has been designing, creating and manufacturing customised jewellery pieces for Territorians since 1990. James and Simon, along with Stephen and Jane Miles and their support team of Mary, Jarmo and Rhianon, have more than 100 years of combined design and manufacturing experience.

All services are offered in-house, including quality jewellery design, manufacturing, sales, service and jewellery repairs at both their Smith Street Mall shop and Stavries Complex Coolalinga store. Stephen and Jane take care of all your needs at Coolalinga, while sons James and Simon, and Jarmo, Rhianon and Mary work in the city. Creative Jewellers is the Territory's number one gold and silver jewellery repairer, from replacement clasps and fittings to setting

restorations, band reconditioning, chain repairs, ring resizing and more.

The team has the specialised traditional knowledge to create magnificent jewellery pieces, along with a CAD facility to create even more intricate and creative works.

'While CAD jewellery design is the latest trend and is more efficient, especially for many of the new designs which would be extremely difficult to achieve by hand, our jewellers and apprentices are traditionally trained in handmade design and manufacturing,' Simon said. 'Having traditionally qualified jewellers in both stores means our repair work is all done in-house.'

Whether you need an individual piece of jewellery designed and manufactured, your favourite piece repaired, checked, cleaned and polished, or you're shopping for a unique gift for yourself or someone else, the expert staff at Creative Jewellers can help.

Creative Jewellers, 1/32 Smith St, Darwin City and Shop 11, Stavries Complex, 465 Stuart Highway, Coolalinga Ph: 8941 1233 sales@creativejewellers.com
