

Products to create the look are all available from miilan.

Grace creates Issy's look.

The finished result is fresh relaxed glamour for Issy.

# FASHION NEWS

Grace's experienced eye immediately recognised Issy's amazing natural hair colour, so she just applied a clear gloss to give more shine. She styled Issy's hair using products from the Wella EIMI range, an affordable fashion-forward collection. She first blow-dried Issy's hair, then used a Cloud Nine wand to create beautiful, natural waves. Working through the sections, Grace popped in rollers so the hair could cool down before being dressed out. Allowing the hair to fully cool ensures long-lasting results for days. Grace used Redken Powder Dust on the top and crown area to create more height and movement.

When Resident wanted to get 'the look' for our fashion feature, we went straight to miilan hair. For Issy, we wanted a fresh, glamorous look. It needed to be something she could easily play with and run her fingers through on location, especially with the breeze. For Scott, we wanted something sharp - short back and sides with a long fringe for a natural, adventurous feel.

Scott's fresh, disconnected fade.

Gary buzz blends Scott for the sharp look.

Gary took Scott into Miilan's NEW Men's Grooming Zone. Located at the front of the salon, it has a vintage glam feel and huge comfy barber chair, perfect for creating Scott's fresh, disconnected fade. Gary used products from the Men's Redken Brew range to complete the style. Scott was also treated to the Men's Pamper 30-minute Package (\$55 includes shampoo, scalp massage, hot towel, cut and style). Walk-ins are welcome for the new Men's Grooming Zone. Perfection is affordable at miilan hair, from a blended buzz for \$30, a beard trim or gents classic cut for \$25, or a 15-minute appointment for just \$35.
