

When the builder of this Noonamah home wanted to add a little pizzazz to the neutral bathroom, they found quality fashionable, decorative and innovative products and solutions at Northern Tile Gallery.

With its beautiful minimalist design, the Lifestyle Decorations Carpet Concrete 300x600 tile adds softness and texture without dominating the room or competing with the outstanding view. The wall makes a pleasant statement, yet blends perfectly with the Rainstone Grey Matt 600x600 floor and wall tiles throughout the rest of the space.

Adding some extra sparkle to the room, the unique Dune Lavabo Redondo Silver basins are from Spain. These stunning countertop glass washbasins are laminated in silver, with a copper finish. The attractive combination of fashion and art brings a rush of excitement and a luminous touch. They are a fantastic decorative, designer solution.

'Northern Tile Gallery's fantastic range, readily available stock and service are second to none. That's why we use and recommend them,' Michael Buckley, owner of M&J Builders, said.

Northern Tile Gallery prides itself on sourcing only the best products available from around the world and exceeding their customers' expectations. The ranges they stock are suitable for walls and floors in bathrooms, kitchens, living areas, outdoor areas, swimming pools and more. The team also offers a free design service.
