

RESIDENT EXPERIENCES

# A ONCE-IN-A-LIFETIME EXPERIENCE

Luxury and adventure are not typically associated with a Northern Territory outback tour — but it's precisely what's on offer with Outback Floatplane Adventures.

20 minute scenic flight from Darwin.

Thrilling air-boat ride on the floodplains.

**There is an 'Ultimate Tour' perfect for you with Outback Floatplane Adventures.**

Glorious sunset dinners at the camp.

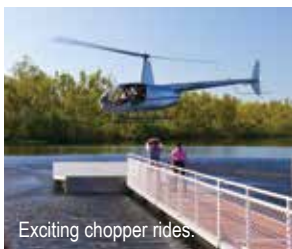

Stay overnight in the Adventure Camp with all the trimmings.

Meet Otis who lives near the pontoon.

Cathedral termite mound.

Exciting chopper rides.

All three 'Ultimate' Outback Floatplane Top End tours offer unique, thrilling and memorable small-group experiences suitable for all ages that are worth every cent. Outback Floatplane is no ordinary tour operator. The crew love what they do, and you can't help but share their excitement. You won't find anything like this all in one tour anywhere else. It's action-packed, breathtakingly beautiful, infinitely peaceful - yet civilised and comfortable. The **Ultimate Half-Day** tour includes air-conditioned hotel transfers, 20-minute scenic floatplane return flights between Darwin and pristine Sweets Lagoon, a leisurely lagoon cruise along with bird watching and barra fishing as the friendly staff cook up a delicious breakfast (or lunch), close (but safe) encounters with the local crocodiles and wildlife, and thrilling airboat rides. Swim in the croc-proof cage alongside the floating

pontoon if you're game. But remember, this is the crocodile's home too, and they also get inquisitive. Or choose the optional 10-minute helicopter flight over the surrounding Finnis River and Litchfield National Park floodplains. Sweets Lagoon was home to legendary croc 'Sweetheart', who can now be seen at the Museum and Art Gallery of the Northern Territory. As locals, the crew openly share their intimate knowledge about the area and the inhabitants you'll see and meet along the way, from Storm the egret, who thinks the pontoon is his home, to the sea eagles and crocs, including four-metre Bone Cruncher, three-metre Smokey or nearly five-metre Otis near the pontoon. The new **Ultimate Full-Day** tour offers all the action of the half-day plus the major Litchfield Park attractions — the magnetic and cathedral termite mounds, stunning waterfalls and swimming, all reached in the

comfort of a guided coach tour. 'It's a convenient, compact yet all-inclusive experience providing a full 360 perspective of the remote wilderness of the Northern Territory by air, on and in the water and overland in a fun, exciting and unique all-inclusive package,' manager Dean Kingi said. If you want to fully immerse yourself in this incredible wilderness, book in for the **Ultimate Overnighter** at the exclusive Adventure 'Glamping' Camp with all the trimmings. Outback Floatplane Adventures are also associated with Swan River Seaplanes and Horizontal Falls Seaplane Adventures in the Kimberley. So, for a seaplane adventure in the best locations, look no further! **For more information or to make a booking contact award-winning Outback Floatplane Adventures Ph: 08 8981 4881 www.outbackfloatplanes.com.au**
