The Top End monsoon is nature at its most intense, as the sun-burnt landscape bursts into life in an explosion of sound and colour under the plentiful rains. Mirroring this resurgence, Paspaley's new Monsoon collection is nature at its most beautiful, taking inspiration from the flora and fauna given new life by the rains and turning it into exquisite pieces that reflect this intoxicating season. Cicada Pendant, Wildflower Ring, Budding Flower Earrings ... each piece pays homage to this natural phenomenon.
