

DENTISTRY WITH A DIFFERENCE

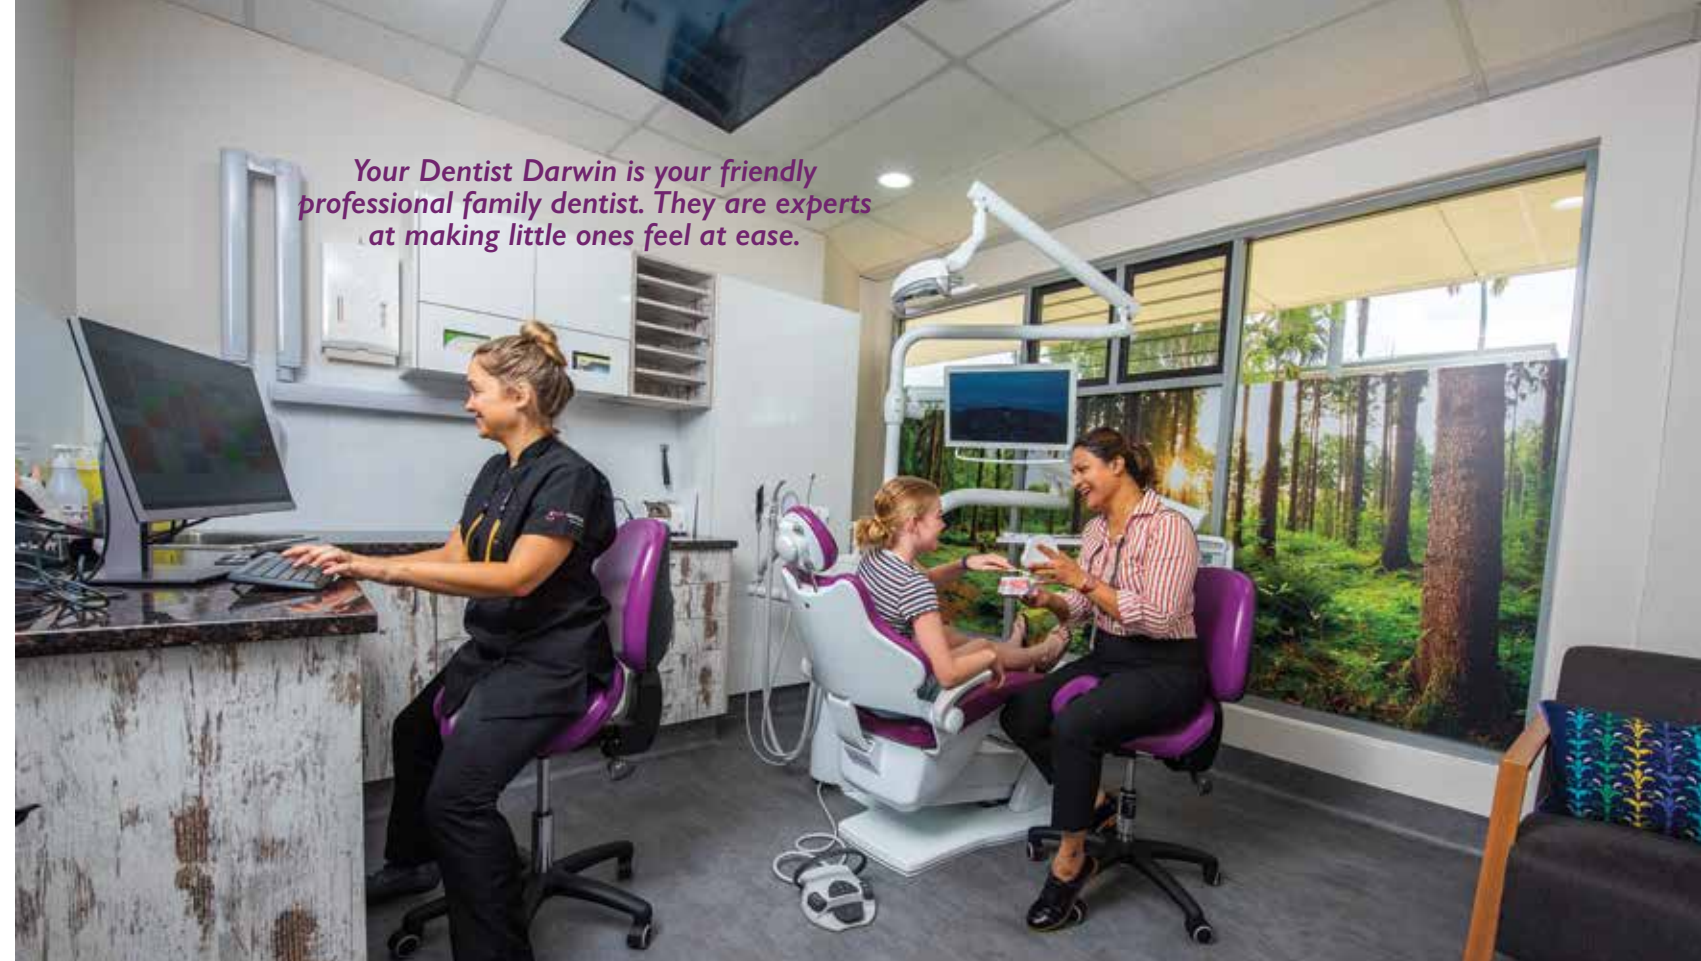

PHOTOGRAPHY MARK AND TIM WORDS NANNETTE HOLLIDAY

Your Dentist Darwin is renowned for its affordable and gentle dental approach. Outstanding patient care has ensured Your Dentist Darwin is the premier choice for family-oriented dental care in Darwin.

Based in the Casuarina Health Precinct with reserved parking, Your Dentist Darwin offers general, corrective and cosmetic dentistry as well as extended trading hours for emergencies. 'We're passionate about helping everyone achieve their dental goals. We also understand people are nervous or anxious about seeing a dentist,' owner and Principal Dentist Rumana Masum says. 'Everyone is treated gently and with respect at all times. Our team understands and is well trained in dealing with patients of all ages.' Your Dentist Darwin treatment rooms even have televisions and noise-cancelling headphones, so you can listen to music or watch your favourite movies and shows. 'We also work with the latest and the best material available, using leading Australian dental laboratories,' Rumana says. 'We never recommend unnecessary treatment, nor will we compromise a patient's oral health with less extensive work when more is needed.'

Your Dentist Darwin is your friendly professional family dentist. They are experts at making little ones feel at ease.

YOUR DENTIST ARE SPECIALISTS FOR THESE DENTAL SERVICES.

WHITENING

Whitening can remove discolouration and restore teeth to their natural colour or better. It is simple and effective and can be undertaken in the chair or through a professional take-home kit. In-chair whitening results are instantaneous, however any whitening correctly performed with professional-strength gels will provide excellent results.

INVISALIGN

Invisalign is an innovative system designed to straighten teeth for children and adults without the need for braces. A series of custom-made removable clear aligners made of a virtually invisible plastic worn over your teeth gradually move your teeth into the ideal position. Invisalign can also be removed when needed for photos and other special occasions.

IMPLANTS

If you are missing a tooth or have a damaged tooth needing extraction, an implant is a great choice. Implants can replace individual teeth (with crowns), a few teeth (with bridges) or whole dentitions (using dentures and full-arch bridgework). A titanium post is surgically inserted into the jawbone and a crown (prosthetic tooth) is then attached. Done correctly, you shouldn't notice it at all.

VENEERS

Veneers are excellent for those unhappy with the shape or size of their teeth. You can choose your ideal shade of white while also correcting misalignment or gaps. Made from porcelain or composite resin, veneers are like a 'cover' for your natural tooth. Unlike a crown, they are attached to the front of the tooth only, so no significant reshaping is required. The premium choice is porcelain, a high-quality, highly stain-resistant, durable, long-lasting tooth-like material. Composite resin is a cost-effective alternative, usually lasting around eight to 10 years before losing their lustre and colour.

Rumana Masum, owner and principal dentist.

At Your Dentist Darwin family is incredibly important, which is why everything is so family-oriented. They offer 'a' to 'z' family dental, whether cosmetic or corrective, plus access to a full range of excellent dental services including implants, veneers and more. 'We keep you well informed about costs and can arrange for treatments or payments to be spread,' Rumana says. 'Through smarter, safer and more enjoyable dentistry we help everyone achieve a happy, healthy smile.' Any surgical or invasive procedure carries risks, before proceeding you should seek a second opinion from an appropriately qualified health practitioner. Make an appointment with **Your Dentist Darwin**. **Open Mon and Wed 9am-5pm, Tues and Thur 9am-8pm, Sat 9am-1pm, 3/7 Gsell Street, Casuarina.
