Z FURNITURE  
ENHANCING  
EDUCATIONAL  
EXPERIENCES

*Innovative designs and Z flair have created next-level learning experiences for future generations at Ludmilla Primary School. The new classrooms are modern, joyful, and reflective of the Top End lifestyle.*

Pre school.

Huddle table, Pozzi chairs.

Collaborative spaces.

Since its very beginning in 1967, Ludmilla Primary has been an innovative school providing exciting educational experiences as diverse as its students. The school's motto 'Together we can achieve anything' had even more meaning when it came to the school's recent renovations. 'Every teacher's class needs were different and too big for us to tackle alone,' Principal Carol Putica said. 'We needed the professional skills and advice from our architects and the experts at Z Furniture to ensure we got the outcomes we desired. The result is amazing, and will benefit students and teachers for years to come.' As a representative for Australia's leading educational furniture manufacturers, Z Furniture provided all the furniture for the pre-school, primary school, staff room and new office building. 'The first priority was the furniture styles. The colours came later,' Z Furniture owner Jenny Riedel said. 'There's ottomans, wobbly stools, happy stools, moulded chairs, natural-coloured trolleys and ergonomic height-adjustable tables, allowing for classroom versatility. Wheels on the tables mean they can be easily moved to suit configurations of one, eight or even 12 students as required.' In the pre-school there is an emphasis on the natural world. 'The mahogany tables on the veranda were made here in Darwin,' Jenny said. Whatever your needs or budget, Z Furniture can tailor a package to suit.
